

ECO BLOW GUN WITH SHORT NOZZLE

AIRSET® ECO

Cod. ECO UG 1000

With short metal nozzle. Useful when a compact blow gun is preferable to a larger one. The nozzle creates a concentrated jet of air which reduces turbulence, enabling a more precise, effective blowing force. Nozzle construction guarantees resistance to wear.

Two hanging options

By the trigger or by the specially designed holder. Both surrounding areas are enforced to withstand increased wear

Ergonomic

Airset ECO blow gun is designed to reduce the risk of repetitive strain injuries. Lever offers a variable and precise air flow; also, it is designed to comfortably fit both small and large hands.

Airset ECO blow guns are tested individually during production: no leaks!

Built in ¼" female plastic thread
