

Mouse blow gun with angled metal pipe and air plug

AIRSET® MOUSE

Code MSE 30 1004E74

Mouse Blow Gun L130, with an air plug already mounted, **European profile DN 7.4**, for connection to a **quick coupling**. Equipped with an angled **stainless steel nozzle**, suitable for harsh environments and extreme conditions.

Ergonomics

The **grip** is designed to facilitate **vertical use**, ideal when air supply lines are above the work surface. This design **avoids unnatural wrist and forearm movements** often required by traditional blow guns. With our grip, you'll enjoy **superior ergonomics** and a more **comfortable** and efficient working experience.

Efficiency

The Mouse blow gun with quick coupling offers a **fast connection to air compressors** thanks to specially designed fittings, allowing operators to **save time** during setup and optimize operational efficiency.

Reliability

When using compressed air, **safety** is a priority. Ensuring a flawless connection is crucial to **prevent leakage**, which often occurs in fittings or couplings. Guaranteeing a **high-quality connection** not only promotes economic and energy savings but also **workplace safety**. Mouse blow guns with air plug ensure a **reliable seal** and consistent **connection quality**, contributing to a **safer working environment**.

TECHNICAL DATA SHEET

Blowing Force (at 6 bar inlet)	2.5 N
Air Consumption (at 6 bar inlet)	275l/m / 9.7 scfm
Noise Level (at 6 bar inlet)	83 dB(A)
Connection	European Profile DN 7.4
Weight	136 g / 0.30 lbs
Working temperature	-10°C/70°C / 14/158 °F
Max. Pressure	10 Bar / 145 psi
Nozzle length	123 mm / 5"

MATERIALS

Handle	Acetal
Thread	Brass
Air Plug	Steel with Anti-Corrosion Treatment
Valve	Acetal and Stainless Steel
Body	Acetal
Nozzle	Stainless steel
