

Rubber flow blow gun with air plug

AIRSET™

Code: RUB GM 1010E74

Rubber Flow blow gun with a **an air plug**, already mounted, **European profile DN 7.4**, for connection to a **quick-release coupling**. The Airset Rubber Flow is a blow gun made entirely of **rubber**. It is a **lightweight and compact** tool—**smaller** than the palm of your hand. Thanks to its rubber construction, it's ideal for **blowing on delicate surfaces**.

Features

- **Ultimate Simplicity:** Just bend the barrel of the gun with a finger to blow.
- **Soft Rubber:** **Protects** the most delicate surfaces from scratches and damage.
- **Compactness:** Small dimensions, **perfect to carry in bags, toolboxes, or pockets**.
- **Durability:** Shock-resistant body, ensuring **long life and reliability**.

Maximum Efficiency

The Rubber Flow gun with **quick coupling** ensures an **instant connection** to air compressors thanks to specially designed fittings, allowing operators to **save time** during setup and maximize operational efficiency.

Safety

When using compressed air, **safety** is essential. Ensuring a flawless connection is key to avoiding leaks, which are often found in fittings or couplings. A high-quality connection not only promotes **economic and energy savings** but also a safer working environment. Rubber Flow blow guns with air plug ensure a **reliable seal** and consistent connection, helping make the **workplace safer**.

TECHNICAL DATA SHEET

Blowing Force (at 6 bar inlet)	2.5 N
Air Consumption (at 6 bar inlet)	275l/m / 9.7 scfm
Noise Level (at 6 bar inlet)	83 dB(A)
Connection	European Profile DN 7.4
Weight	136 g / 0.30 lbs
Working temperature	-10°C/70°C / 14/158 °F
Max. Pressure	10 Bar / 145 psi

MATERIALS

Air Plug	Steel with Anti-Corrosion Treatment
Body	Rubber
