MOUSE BLOW GUN PRESSURE REDUCER WITH SILENCED NOZZLE

AIRSET PRESSURE REDUCER

Cod. **RME SL10 02**

With safety silenced nozzle, for a high noise reduction. Nozzle is designed for sensitive operations, like car cleaning or drying delicate parts; where it's important to preserve the surface. Nozzle offers a wide flow for cleaning surfaces, objects and machinery.

Why use a pressure reduced blow gun?

- Noise reduction: **Air flow is very quiet.**
- Energy saving: **Built in pressure reducer from 6 bar, to 3.5 bar (or 6 bar to 2 bar), allows to consume less air.**
- Safety: blow guns meet European and OSHA regulation; Suva Pro certification as well.

Grip

Blow gun can be operated in vertical, for top air connection. Grip and handle are designed for vertical air supply connection. This offers the best safety and ergonomics for these applications; especially when repetitive use occurs.
