Air plug male thread 3/8" BSP - European profile DN 7,4

AIRSET®

Cod. IN 10M 38E74

3/8" BSP Male air plug with **European profile DN 7.4.** Designed for **quick** connection of hoses and pneumatic tools.

In compressed air applications, leaks are common, especially at connectors and quick couplings. If these components are not of high quality, they can compromise the performance and profitability of your work. Therefore, **ensuring perfect and durable connections is crucial for energy savings and reduced economic impact.**

AMPLA quick connectors, in combination with the **AT 240 quick coupling,** provide the ideal solution: made from materials resistant to corrosion, scratches, and wear, they are perfect for use in even demanding industrial environments. **They adhere to dimensional standards to ensure a perfect seal and prevent air leaks.**

Features

- Made of iron with **anti-corrosion treatment**
- **Scratch and wear resistant**
- **Compliant with dimensions and standards used**

Attenzione : il produttore si riserva il diritto di modificare le caratteristiche del prodotto in qualsiasi momento e senza preavviso.

TECHNICAL DATA SHEET

Maximum Operating Pressure	**12 bar / 174 psi**
Operating Temperature	**-10°C / 70°C / 14/158 °F**
Nominal Diameter	**7.4 mm**

MATERIALS

Connector	**Iron with anti-corrosion treatment**
