Professional kit - Tucano L130 blow gun with accessories

AIRSET® TUCANO

Cod. KTCN5000

Professional kit. Suitcase with blowgun and accessories. Kit is composed of a Tucano L130 professional blow gun, chip guarding shield, venturi nozzle, safety nozzle and rubber tip.

Tucano blow gun L130 offers an angled stainless steel nozzle, **designed for professional industrial use**. Nozzle construction guarantees resistance to wear; at the same time, stainless steel is resistant to corrosion and chemicals.

Variable airflow trigger

Tucano adopts a special valve which allows a **progressive control of the lever: this reduces the noise level and air consumption**. In the progressive mode the operator can adjust the flow with great precision, which is useful in the most jobs. Instead, fully pressing the lever will use all the blowing force.

Ergonomic handle

Tucano offers a Soft-Touch handle, made of soft ergonomic rubber, for **comfort and easy handling. This material reduces the risk of repetitive strain injuries.**
