Standard blow gun with bicycle tyre inflator nozzle

AIRSET®

Cod. STD BY 1002

Equipped with a universal tyre inflation nozzle for bicycles, it is compatible with Dunlop and Presta valves, ensuring practicality and versatility of use. The nozzle is mounted on a nickel-plated steel tube, allowing easy access even to hard-to-reach areas while maintaining a safe blowing distance. Ideal for inflating bicycle and stroller tyres.

Historic and proven product

This gun has been on the market for over 30 years and is used daily by industry professionals. A reliable, safe, and time-tested product, synonymous with quality and durability.

Easy to hang and always within reach

The gun can be hung in two ways: rested on the operating lever or hung on the dedicated support. Both systems are reinforced to ensure greater resistance to wear, even in intensive working environments.

Ergonomic and comfortable

The ergonomic shape of the gun is designed to minimize repetitive strain injuries. The open-shaped operating lever is suitable for both large and small hands, ensuring precise and controlled blowing.

Quality and safety control

Airset Standard guns are individually tested, ensuring the absence of air leaks. The ¼" BSP brass thread, integrated directly into the gun body, guarantees a secure and reliable connection, preventing air loss.

TECHNICAL DATA

Blowing force (with a 6bar - 90psi inlet)	**2.3 N**
Air consumption (with a 6bar - 90psi inlet)	**275 l/m - 9.7 scfm**
Sound level (with a 6bar - 90psi inlet)	**83 dB(A)**
Connection thread	**1/4" BSP**
Weight	**136 g - 0.30 lbs**
Operating temperature	**-10°/70° - 14/158 °F**
Maximum operating pressure	**10 Bar - 145 psi**
Tube length	**137 mm - 5.40"**

MATERIALS

Handle	**Acetal**
Thread	**Brass**
Valve	**Acetal and stainless steel**
Body	**Acetal**
Pipe	**Nickel-plated steel**
Nozzle	**Brass and rubber**
