Tucano blow gun with angled metal pipe and air plug

AIRSET® TUCANO

Cod. TCN 30 4040E74

Tucano L130 Blow Gun, with an **air plug** already mounted, **European Profile DN 7.4**, for connection to a **quick-release coupling**. Equipped with a bent **stainless steel** nozzle, suitable for tough environments and extreme conditions.

Speed

The distinctive feature of the Tucano blow gun with an air plug is its ability to **quickly connect** to air compressors through specially designed couplings. This air plug allows operators to **easily connect and disconnect the gun**, reducing setup times and improving overall **efficiency** of operations.

Safety

When using compressed air, leaks occur most frequently at a fitting or coupling. Therefore, it is crucial to ensure that the **quality** of the connection is perfect; this ensures **economic and energy savings**. Tucano blow guns with air plugs can guarantee a high quality and long-lasting seal for your connection.

Ergonomics

Ergonomics is another crucial aspect of the Tucano blow gun with an air plug; with a soft-touch rubber handle, designed to maximize the operator's **comfort** during prolonged use. This helps to **reduce fatigue** and increase **workplace safety**.

Blow guns with air plugs represent an **effective and reliable solution** for a wide range of **industrial applications**.
