

Spiral Hose with Quick Coupling and Plug Kit Ø 6,5x10 – Yellow

AIRSET™

Mod. KSG071651004

Compressed air connection kit with included quick coupling. High-visibility yellow hose with a diameter of 6.5x10 mm, available in lengths of 4, 6, and 8 meters.

This kit is designed for immediate use, without the need to screw the hose onto the system or compressor. Connection is made via a quick coupling, ensuring convenience and speed in daily use. The kit includes a 95 Shore PU spiral hose, assembled with AT 240 quick coupling and plug.

Features:

- **95 Shore PU Spiral Hose:** Offers excellent strength and flexibility, ensuring long-lasting durability. The spiral includes a plastic anti-kink spring that prevents scratches on surfaces in contact.
- **Safety Quick Coupling Included:** Ideal for fast and safe connection of blow guns or other pneumatic tools, reducing setup time and increasing operational efficiency.
- **European Profile DN 7.4 Quick Plug Included:** Positioned at the end of the hose, it facilitates connection to the system, ensuring stable and reliable sealing.

Advantages of High-Visibility Hose:

- **Increased Safety:** The high-visibility yellow color makes the hose easily noticeable, reducing the risk of tripping or accidental damage during use. Particularly useful in crowded or poorly lit work environments.
- **Easy Identification:** In areas with multiple hoses and cables, a high-visibility hose helps quickly distinguish it, simplifying maintenance operations and reducing intervention times.
- **Professional Care:** The high-visibility yellow hose not only enhances safety but also contributes to a tidy, professional workplace appearance, demonstrating attention to detail and organization.

These advantages make the compressed air connection kit with high-visibility yellow hose an excellent option for those seeking safety, efficiency, and professionalism in their pneumatic equipment.

HOSE MATERIALS

Hose	Polyurethane (PU)
Spring	Plastic
Fittings	Brass
O-rings	NBR

QUICK COUPLING MATERIALS

Thread	Brass
Metal parts	Stainless Steel
Body	Technopolymer
Seals	NBR

TECHNICAL DATA SHEET

Operating Temperature	-30°C / +60°C
Max. Pressure	10 Bar
