

## Spiral Hose with Quick Coupling and Plug Kit Ø 8x12 – Yellow

AIRSET™

Mod. KSG071081206

Compressed air connection kit with included quick coupling. High-visibility yellow hose Ø 8x12 mm, available in 6 and 8 m lengths.

This kit is ready-to-use, with no need to screw the hose to the system or compressor. Connection is made via a quick coupling, ensuring convenience and speed in daily use. The kit includes a 95 Shore polyurethane spiral hose assembled with AT 240 quick coupling and plug.

### Features:

- **95 Shore polyurethane spiral hose:** Offers excellent resistance and flexibility for long-lasting durability. The spiral includes a plastic anti-kink spring that prevents scratches on surrounding surfaces.
- **Safety quick coupling included:** Ideal for fast and safe connection of blow guns or other pneumatic tools, reducing setup time and improving operational efficiency.
- **European type DN 7.4 quick plug included:** Positioned at the hose end, it ensures easy and stable connection to the system.

### High-visibility hose advantages:

- **Increased safety:** The high-visibility yellow color makes the hose easy to spot, reducing the risk of tripping or accidental damage. Especially useful in crowded or poorly lit work areas.
- **Easy identification:** In environments with multiple hoses and cables, the high-visibility hose can be quickly distinguished, simplifying maintenance and reducing intervention time.
- **Professional appearance:** The high-visibility yellow hose contributes to a neat and professional workspace, demonstrating attention to detail and organization.

These advantages make the compressed air connection kit with high-visibility yellow hose an excellent choice for those seeking safety, efficiency, and professionalism in pneumatic equipment.

## HOSE MATERIALS

Hose	<b>Polyurethane (PU)</b>
Spring	<b>Plastic</b>
Fittings	<b>Brass</b>
O-rings	<b>NBR</b>

## QUICK COUPLING MATERIALS

Thread	<b>Brass</b>
Metal parts	<b>Stainless Steel</b>
Body	<b>Technopolymer</b>
Seals	<b>NBR</b>

## TECHNICAL DATA SHEET

Operating temperature	<b>-30°C / +60°C</b>
Maximum inlet pressure	<b>10 Bar</b>
