TUCANO BLOW GUN WITH RUBBER TIP

AIRSET® TUCANO

Cod. TCN TP 4040

Blow gun with angled stainless steel pipe and rubber tip nozzle. Nozzle made of scratchproof rubber to minimize the risk on delicate surfaces. Rubber tip also works as a pressurizer when cleaning pipes or molds, for a more efficient cleaning.

Variable airflow trigger

Tucano adopts a special valve which allows a progressive control of the lever: this reduces the noise level and air consumption. In the progressive mode the operator can adjust the flow with great precision, which is useful in the most jobs. Instead, fully pressing the lever will use all the blowing force

Ergonomic handle

Tucano offers a Soft-Touch handle, made of soft ergonomic rubber, for comfort and easy handling. This material reduces the risk of repetitive strain injuries
