AP 25 F MEMBRANE HAND PUMP FOR ALIMENTARY FLUIDS

CARBUSET
POMPE MANUALI PER ALIMENTI AP 25 F

Cod. APF 1000

AP 25 F membrane hand pump is designed for alimentary fluids transfer. its application is the food industry, like beverage and aliment production.

Safe transfer

When handling alimentary fluids, it's important to preserve the liquid purity, especially because they are intended to people. AP 25 F membrane hand pump is made of food contact certified materials, FDA (Federal Food Administration and conform to European regulations.

Metal parts are made of stainless steel, for an improved durability and corrosion resistance.

Portable

Small size, just 34x11 cm and 600g of weight, this pump **can be carried and installed easily. In fact, can be used in the food or agricultural industry for barrel transferring.**

Handy

The action lever can be adjusted in 4 positions: 0°, 45°, 90°, 180°. Also has an ergonomic design to reduce possible strain injuries due to repetitive use. Pump body offers a wall support to fix the pump on a wall or workbench. Pump can work in vertical too.
