

# AP 25 F MEMBRANE HAND PUMP FOR ALIMENTARY FLUIDS

CARBUSET<sup>®</sup>  
POMPE MANUALI PER ALIMENTI AP 25 F

## **Cod. APF 1000**

AP 25 F membrane hand pump is designed for alimentary fluids transfer. its application is the food industry, like beverage and aliment production.

## **Safe transfer**

When handling alimentary fluids, it's important to preserve the liquid purity, especially because they are intended to people. AP 25 F membrane hand pump is made of food contact certified materials, FDA (Federal Food Administration and conform to European regulations).

**Metal parts are made of stainless steel, for an improved durability and corrosion resistance.**

## **Portable**

Small size, just 34x11 cm and 600g of weight, this pump **can be carried and installed easily. In fact, can be used in the food or agricultural industry for barrel transferring.**

## **Handy**

The action lever can be adjusted in 4 positions: 0°, 45°, 90°, 180°. Also has an ergonomic design to reduce possible strain injuries due to repetitive use. Pump body offers a wall support to fix the pump on a wall or workbench. Pump can work in vertical too.
