TUCANO BLOW GUN WITH SAFETY NOZZLE

AIRSET® TUCANO

Cod. TCN S3 4040

Offers a vented rubber nozzle, which creates a wide and efficient flow. Nozzle is silenced for a low noise level. Its rubber tip is designed for delicate surfaces or parts. This special safety nozzle is fixed on an angled stainless steel pipe, for narrow, hard-to-reach spaces; also, keep a safety distance from blown surfaces. The vented tip also prevents pressure exceeding 30 PSI (2 Bar) if the tip becomes blocked (conforms with OSHA Std 1-13.1).

Variable airflow trigger

Tucano adopts a special valve which allows a progressive control of the lever: this reduces the noise level and air consumption. In the progressive mode the operator can adjust the flow with great precision, which is useful in the most jobs. Instead, fully pressing the lever will use all the blowing force

Ergonomic handle

Tucano offers a Soft-Touch handle, made of soft ergonomic rubber, for comfort and easy handling. This material reduces the risk of repetitive strain injuries
