TUCANO BLOW GUN WITH EXTENDED METAL PIPE

AIRSET® TUCANO

Cod. TCN 35 4040

Safety blow gun with an extended pipe for narrow, hard-to-reach spaces. Offers also a better and safety distance from blown surfaces. Pipe is made of stainless steel for professional industrial use. Pipe construction guarantees resistance to a very high mechanical wear; at the same time, stainless steel is resistant to corrosion and chemicals.

Variable airflow trigger

Tucano adopts a special valve which allows a progressive control of the lever: this reduces the noise level and air consumption. In the progressive mode the operator can adjust the flow with great precision, which is useful in the most jobs. Instead, fully pressing the lever will use all the blowing force

Ergonomic handle

Tucano offers a Soft-Touch handle, made of soft ergonomic rubber, for comfort and easy handling. This material reduces the risk of repetitive strain injuries

Available in 3 lenghts:

TCN 35 4040 - 327 mm / 13"

TCN 52 4040 - 497 mm / 20"

TCN 10 4040 - 1012 mm / 40"
