TUCANO BLOW GUN WITH PLASTIC NOZZLE

AIRSET® TUCANO

Cod. TCN PL 4040

The nozzle creates a concentrated jet of air which reduces turbulence, enabling a more precise, effective blowing force. Nozzle is made of rugged plastic, resistant to wear. Moreover, offers a scratch-free material to minimize the risk on delicate surfaces

Variable airflow trigger

Tucano adopts a special valve which allows a progressive control of the lever: this reduces the noise level and air consumption. In the progressive mode the operator can adjust the flow with great precision, which is useful in the most jobs. Instead, fully pressing the lever will use all the blowing force

Ergonomic handle

Tucano offers a Soft-Touch handle, made of soft ergonomic rubber, for comfort and easy handling. This material reduces the risk of repetitive strain injuries
